

# The Power of Podcast

Mediafin is known for its economical newspapers and magazines, targeting an affluent audience. As of January, 26<sup>th</sup> of 2022 we also started to publish editorial podcasts.

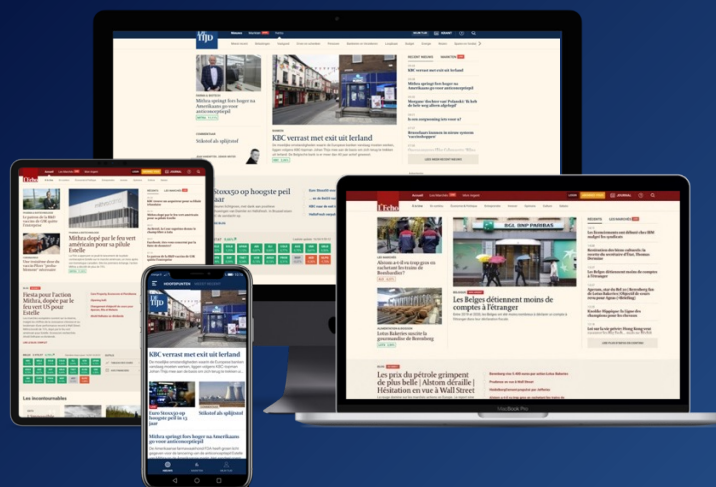

print

digital

audio

# we

- registered over **7 million** downloads

- created **2** Daily's **6** Weekly's **14** Series

- Approximately **27K** Downloads per day and growing

Unfortunately, there was no local, national Belgian study on podcast usage

So we decided  
to create our  
own...

We  
studied...

The profile/attitude  
of the (B2B)  
Belgian podcast  
listener

Their perception  
of (native)  
advertising

in podcasts

# Profile of the (B2B) Podcast Listener

# Methodology

## SAMPLE DESCRIPTION

Belgian general population; aged 18-70

## SAMPLE SIZE

- Main sample: n = **1500**
- Boost sample 'affluents': n = 125

## DATA COLLECTION METHOD

Online interviews

## AVG. INTERVIEW DURATION

15 minutes

## QUOTA

### Quotas applied on

- Age
- Gender
- Region
- Social Class
- Education (Check Market sample only)

## FIELDWORK PERIOD

11/01/2022 – 26/01/2022

# ■ Did you listen to podcasts in the past month? (2022)

Average % Belgian population

**29%**

Affluent segment

**46%**

- **Stay tuned for an update in the spring of 2023... We expect a major uptake in listening**

# Tell me why?

## Motivation for listening to podcasts

To learn something

To inform / keep me informed

Purely for relaxation / entertainment

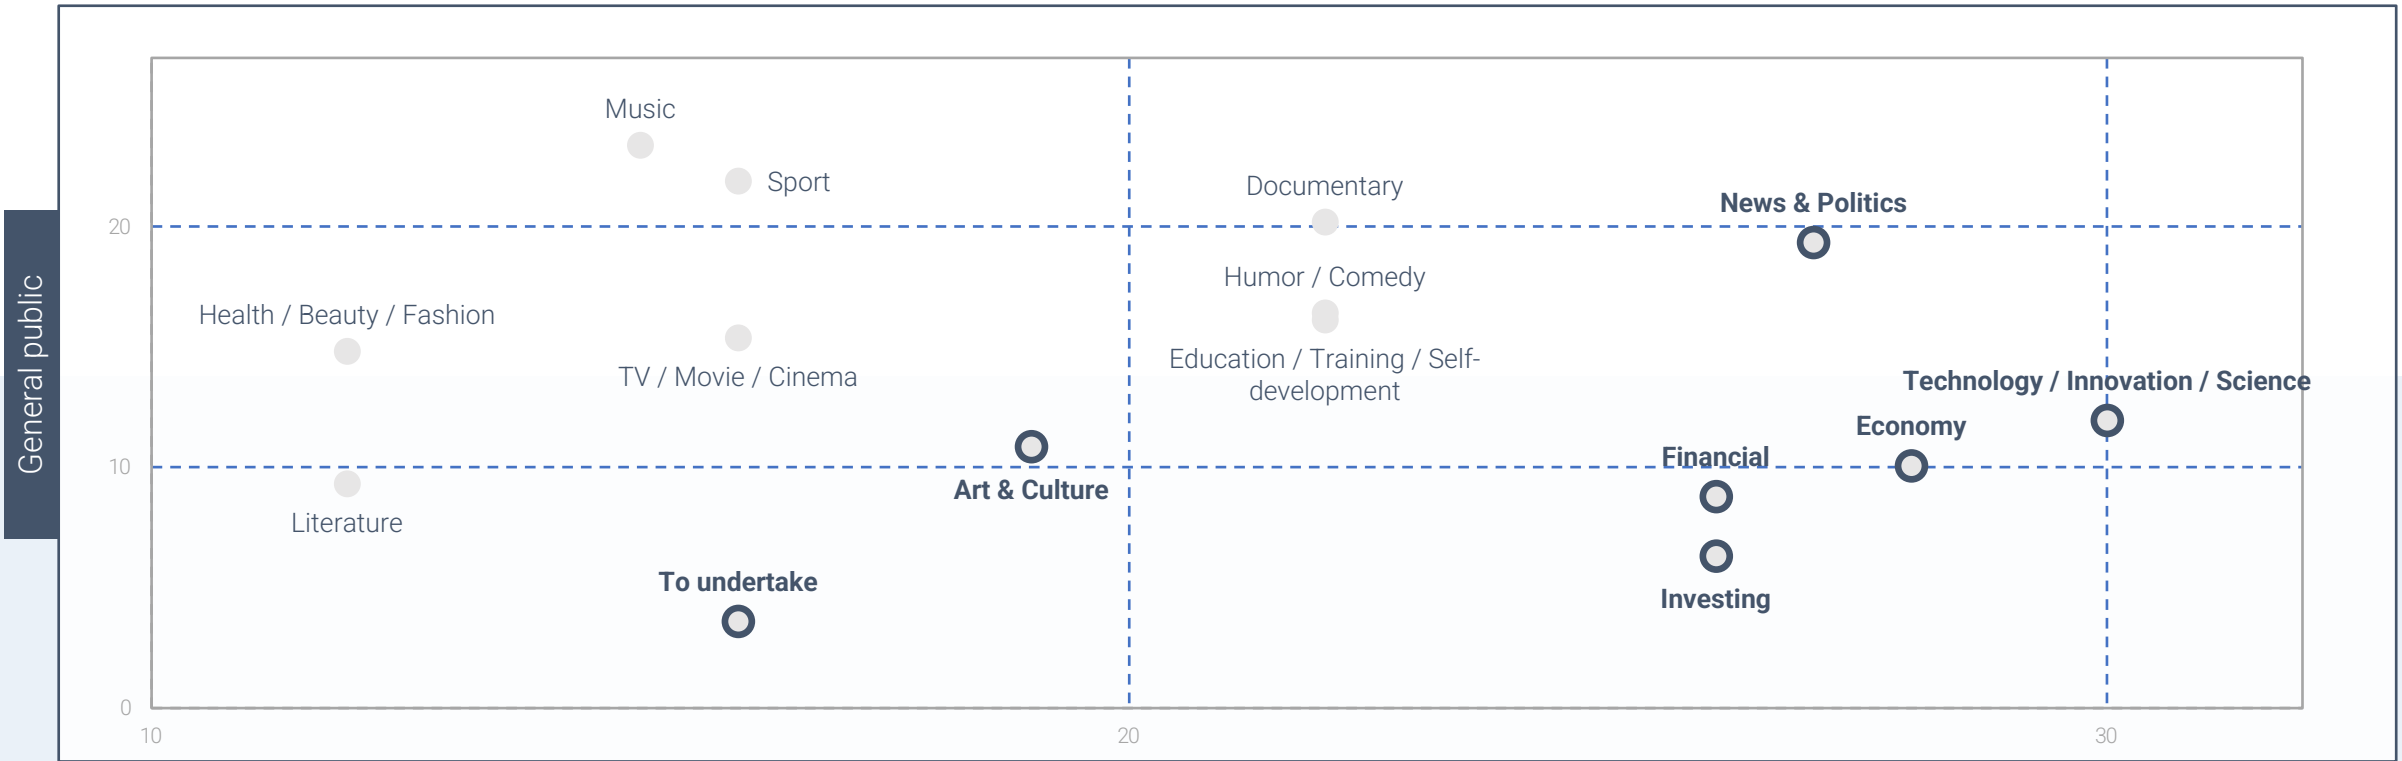

General public

DT | LE audience

- Base: general public= Audio podcast listeners (n= 421), De Tijd | L'Echo audience= audio podcast listeners (n= 433)  
Question: Q10. What is / would be the main reason for you to listen to audio podcast(s)?

# The Belgian podcast listener also has a different content preference than our affluent audience.

The top 3 content categories for the general public are 'music', 'sports' and 'documentary'. For our affluent audience this is 'Technology/innovation/Science' and 'Economy'

Affluent audience

○ B2B audience **significantly higher** than general public

Base: general public= Audio podcast listeners (n= 421), B2B audience= audio podcast listeners (n= 433)  
Question: Q16. Which audio podcast categories/themes have you been listening to in the past few months?

# Podcast are considered to be highly credible sources for news and information and are comparable to Radio, print and TV

# The perception of (native) advertising in podcasts

The effect of five different factors  
on listeners' attitude and behaviour  
towards podcast advertising  
in De Tijd and L'Echo podcasts

■ Several factors can influence the perception of the audience

**ad location**

preroll,  
after intro,  
midroll and  
postroll

**ad type (message)**

disclosure,  
host-read message  
and advertiser-  
voiced

**advertiser type**

direct link with  
topic and no  
direct link with  
topic

**podcast type**

daily overview  
and thematic  
podcast

**personal relevance**

personally  
relevant or not

Do they recognize and remember the ad? How do they behave towards the ad?  
How do they feel about the brand and the ad?

## How did we test this?

**1**

experiment  
in an online survey

**16**

manipulated audio  
snippets per  
medium  
(L'Echo and De Tijd)

**2**

exposures  
per respondent  
**n= 1109**

survey of items  
connected to  
verified scales

1. Ad location = key

2. Fit in with the content

3. Host authenticity is key

4. Personal relevance rules all

# Key take-aways

# One influencing factor: ad location

	PRE	POST INTRO	MID	POST
Attitude towards the ad	↓	—	—	↗
Attitude towards the brand	—	↓	↓	↗
Perceived manipulative intent	—	↓	—	↗
Ad avoidance	—	↓	—	↗
Podcast credibility	↓	—	↗	—

The combination of both studies give us guidelines to improve our own editorial and native podcasts

An update of the data will be  
available in June 2023

DE  
TIJD

Trust  
media.  
beyond advertising
