Why do we deserve an AMMA

- **1. From data ownership to data utilization**: We moved from having data to basing our strategy entirely on data insights.
- **2. New metrics for targeting**: We developed the "Market Penetration Ratio" as an innovative metric for B2B targeting.
- **3. Fully data-driven project**: From data collection to activation every aspect of the campaign was data-driven.
- **4. Technical innovation**: We developed technical solutions to translate NACE code insights into concrete targeting parameters.
- **5. Rigorous validation**: Our AB testing resulted in significant improvements in efficiency and conversion.
- **6. Measurable business impact**: Results show that our data-driven approach contributes directly to Polestar's sales goals.
